

INDEX TO VOLUME 37

ARTICLES

- American Leaders, Conditions which Correlate with the Production of, Stephen S. Visser, 75-80.
- Archer Willis Hurd, 297-298.
- Atomic Energy in the Education of Science Teachers, The Present Status and Future Trends in the Field of, Truman L. Hall, 99-102.
- Audio-Visual Resources for the Teaching of Science, Sam S. Blanc, 102-105.
- Basis for a Physical Science Course on the College Level, A. Rogers E. Randall, 211-212.
- Beginnings, Early Membership, and Early Activities of NARST, The, Ralph K. Watkins, 17-21.
- Biology Requirements in the General Education Programs of Some Midwestern Colleges and Universities, Ted F. Andrews and John Brukelman, 205-210.
- Cecil Franzen DeLaBarre, 267.
- Changes NARST Positions, 32.
- Changes in Position by NARST Members, 336.
- Charles William Finley, 267.
- Charter Members of NARST, 22-29.
- Children and Youth, Science Through the Eyes of, Millie C. Almy, 237-240.
- Community Development, The Science Teachers Role in, Sloan R. Wayland, 249-253.
- Conditions which Correlate with the Production of American Leaders, Stephen S. Visser, 75-80.
- Construction and Validation of a Test to Measure Some of the Inductive Aspects of Scientific Thinking, The, Mary Alice Burmester, 131-140.
- Current Science, Science Interests of Junior College Girls as Determined by their Readings in, Clyde M. Brown, 102-105.
- Determination of Materials Dealing with Soil Conservation and Suitable for Integration into Courses of High School Science for General Education, A. E. Eugene Irish, 84-99.
- Education of Teachers in Science, Report of the Thirty-First Conference on the, 254-266.
- Elementary Science as It Relates to the Developmental Problems of Children, John G. Navarra, 226-231.
- Evolution and Thermodynamics, Richard L. Burling, 184.
- For Greater Safety in Science Teaching, Junior and Senior High School Standing Committee on Science, New York City Board of Education, 320-330.
- General Chemistry Textbook Prices, 1925-1951, Will S. DeLoach, 183-184.
- General Science Quarterly—Science Education, Clarence M. Pruitt, 10-11.
- Generation of Science and a Young Generation, Willard Jacobson, 219-222.
- Group discussions at the Cleveland Meeting of the National Council for Elementary Science, 232-233.
- Group picture of NARST Officers, 39.
- Group picture of NARST, 31.
- Growth and Activities of the National Association for Research in Science Teaching, The, Hanor A. Webb, 11-17.
- Human Relations, A Tool for Effective Science Teaching: The Study of, Simon Williams, 151-158.
- Implications of Certain Theories Regarding Creative Inspiration, Harold K. Punke, 307-315.
- Improving Science Teaching Through Realistic Research, Kenneth E. Anderson, 55-61.
- J. Darrell Barnard, 5-6.
- Learning By Thinking, M. L. Story, 331-335.
- Laboratory Teaching in College Basic Science Courses, W. C. VanDeventer, 159-172.
- NARST Members in Foreign Service, 35.
- Needed Research in Evaluation in Science Teaching, William B. Reiner, 61-69.
- New Members of NARST, 30-32.
- Official Minutes of NARST Business Meeting and NARST Committees, Chicago, February 16, 1952, 49-54.
- Performance Tests in Physics at the University of Minnesota, Haym Kruglak and C. Raymond Carlson, 108-121.
- Physical Science Course on the College Level, A Basis for a, Rogers E. Randall, 211-212.
- Present Status and Future Trends in the Field of Atomic Energy in the Education of Science Teachers, The, Truman L. Hall, 99-102.
- Problematic Life Situations, Science Education and the Development of Abilities to Cope with, Willard J. Jacobson, 172-182.
- Program of National Council for Elementary Science, 233-236.
- Program of Twenty-Fifth Annual Meeting of the National Association for Research in Science Teaching, 39-42.
- Psychology, Some Problems Related to the Teaching of, George Greisen Mallinson, 185-186.
- Recent Developments in Electronic Communications, Harold S. Spielman, 241-249.
- Report to the NARST on the Activities for 1951-52 of the Cooperative Committee on the Teaching of Science and Mathematics of the AAAS, A. George Greisen Mallinson, 42-48.
- Report of the Thirty-First Conference on the Education of Teachers in Science, 254-266.
- Science and Developing Democratic Theory, Edward K. Weaver, 299-307.
- Science Education and the Development of Abilities to Cope with Problematic Life Situations, Willard J. Jacobson, 172-182.
- Science in California's Elementary School Program, Helen Hefferman, 223-225.
- Science Interests of Junior College Girls as Determined by their Readings in Current Science, Clyde M. Brown, 105-108.

- Science of Grading, The, Otto J. M. Smith, 193-205.
- Science Teachers' Role in Community Development, The, Sloan R. Wayland, 249-253.
- Science Through the Eyes of Children and Youth, Millie C. Almy, 237-240.
- Scientific Method and Attitude Development, Teaching Chemistry for, Clarence H. Boeck, 81-84.
- Scientific Thinking Can Be Taught to Function in the Everyday Life of Students, Brenda Lansdown, 315-318.
- Scientific Thinking, The Construction and Validation of a Test to Measure Some of the Inductive Aspects of Scientific Thinking, Mary Alice Burmester, 131-140.
- Sociodramatic Slant to Science Teaching, A, Theodore W. Munch, 318-320.
- Soil Conservation and Suitable for Integration into Courses of High School Science for General Education, A Determination of Materials Dealing with, E. Eugene Irish, 84-99.
- Some Problems Related to the Teaching of Psychology, George Greisen Mallinson, 185-186.
- Studies in Mental Rigidity and Scientific Method: III Rigidity and Comprehensiveness in the Normal Classroom Situation, Marvin D. Solomon, 121-131.
- Study of Student Opinion Concerning Survey Courses in Natural Science, A, E. E. Black and H. F. Glidden, 187-192.
- Survey Courses in Natural Science, A Study of Student Opinion Concerning, E. E. Black and H. F. Glidden, 187-192.
- Teaching Chemistry for Scientific Method and Attitude Development, Clarence H. Boeck, 81-84.
- Thirty-First Yearbook in Retrospect and with a Look to the Future, Francis D. Curtis, 36-37.
- Thirty-First Yearbook in Retrospect and with a Look to the Future, The, Samuel Ralph Powers, 33-35.
- Thirty-First Yearbook in Retrospect and with a Look to the Future, The, Ralph K. Watkins, 38.
- Tool for Effective Science Teaching: The Study of Human Relations, A, Simon Williams, 151-158.
- Vernon S. Culp, 9.
- Walter George Whitman, 7-9.
- Ward T. Fletcher, 9.
- What is Artificial Muscle? Teru Hayashi, 253-254.
- BLANC, SAM S., Audio-Visual Resources for the Teaching of Science, 102-105.
- BOECK, CLARENCE H., Teaching Chemistry for Scientific Method and Attitude Development, 81-84.
- BREUKELMAN, JOHN AND TED F. ANDREWS, Biology Requirements in the General Education Programs of Some Midwestern Colleges and Universities, 205-210.
- BROWN, CLYDE M., Science Interests of Junior College Girls as Determined by their Readings in Current Science, 102-105.
- BURLING, RICHARD L., Evolution and Thermodynamics, 184.
- BURMESTER, MARY ALICE, The Construction and Validation of a Test to Measure Some of the Inductive Aspects of Scientific Thinking, 131-140.
- CARLSON, C. RAYMOND AND HAYM KRUGLAK, Performance Tests in Physics at the University of Minnesota, 108-121.
- CURTIS, FRANCIS D., The Thirty-First Yearbook in Retrospect and With a Look to the Future, 36-37.
- DELOACH, WILL S., General Chemistry Textbook Prices, 1925-1951, 183-184.
- GLIDDEN, H. F. AND E. E. BLACK, A Study of Student Opinion Concerning Survey Courses in Natural Science, 187-192.
- HALL, TRUMAN L., The Present Status and Future Trends in the Field of Atomic Energy in the Education of Science Teachers, 99-102.
- HAYASHI, TERU, What is Artificial Muscle?, 253-254.
- HEFFERMAN, HELEN, Science in California's Elementary School Program, 223-225.
- IRISH, E. EUGENE, A Determination of Materials Dealing With Soil Conservation and Suitable for Integration into Courses of High School Science for General Education, 84-99.
- JACOBSON, WILLARD, A Generation of Science and a Young Generation, 219-222.
- JACOBSON, WILLARD J., Science Education and the Development of Abilities to Cope with Problematic Life Situations, 172-182.
- JUNIOR AND SENIOR HIGH SCHOOL STANDING COMMITTEE ON SCIENCE, New York City Board of Education, Greater Safety in Science Teaching, 320-330.
- KRUGLAK, HAYM AND C. RAYMOND CARLSON, Performance Tests in Physics at the University of Minnesota, 108-121.
- LANSDOWN, BRENDA, Scientific Thinking Can Be Taught to Function in the Everyday Life of Students, 315-318.
- MALLINSON, GEORGE GREISEN, A Report to the NARST on the Activities for 1951-52 of the Cooperative Committee on the Teaching of Science and Mathematics of the AAAS, 42-48.
- , Some Problems Related to the Teaching of Psychology, 185-186.
- MUNCH, THEODORE W., A Sociodramatic Slant to Science Teaching, 318-320.
- NAVARRA, JOHN G., Elementary Science as It Relates to the Developmental Problems of Children, 226-231.

AUTHORS

- ALMY, MILLIE C., Science Through the Eyes of Children and Youth, 237-240.
- ANDERSON, KENNETH E., Improving Science Teaching Through Realistic Research, 55-61.
- ANDREWS, TED F. AND JOHN BREUKELMAN, Biology Requirements in the General Education Programs of Some Midwestern Colleges and Universities, 205-210.
- BLACK, E. E. AND H. F. GLIDDEN, A Study of Student Opinion Concerning Survey Courses in Natural Science, 187-192.

POWERS, SAMUEL RALPH, The Thirty-First Yearbook in Retrospect and With a Look to the Future, 33-35.

PRUITT, CLARENCE M., General Science Quarterly—Science Education, 10-11.

PUNKE, HAROLD H., Implications of Certain Theories Regarding Creative Inspiration, 307-315.

RANDALL, ROGERS E., A Basis for a Physical Science Course on the College Level, 211-212.
